

SymetriQ Cloud Hosted Email

*"By 2012, Cloud email
will cost over 50%
less than the in-house
alternative"*

– Gartner

Cloud Hosted Email from **SymetriQ** delivers feature rich, business class email, which is easy to set up, reduces cost and complexity and is based on our secure, resilient and high performance Cloud platform. This vastly reduces time spent on email by your in-house IT team, while increasing scalability and reducing costs.

symetriQ

Features

- SymetriQ Cloud Hosted Email is a next-generation collaboration service that provides organisations greater overall flexibility and simplicity with integrated email, calendar, contacts, sharing and document management plus mobility and desktop synchronisation to users on any computer.
- Lower overall total cost-of-ownership (TCO), through hosting on the resilient and scalable SymetriQ Cloud.
